SETTING UP AUDITOR ADMIN ACCESS

When you provide Aquila Super with Auditor Admin access to your funds, we can log into the software, generate reports and view accounts and entries that have been processed. This potentially reduces the number of queries raised, saving time when you need it the most.

Auditor Access is a “read only” permission setting in the software that requires an email invitation to be provided by your firm that grants secure access to:

- Dashboards
- Live Reports
- Reports
- Documents

To provide Aquila Super with auditor access to your funds, follow these easy steps:

- From the Business menu, click on the Contacts tab, click on New and then select New Person
- A new box will open. Complete the following fields on the Details tab:
